Dear Colleagues and Friends,

we are very pleased to invite you to our

**Forum International
Neural Therapy & Functional Myodiagnosis from
October 4 – 6, 2024.**

For the very first time we are organizing this forum in cooperation with the Society of Functional Myodiagnosis. The professional synergies and collegial exchanges were an inspiration for the entire congress planning.

We were able to invite very interesting and highly qualified speakers from all over Europe. The program speaks for itself.

Come and join us! An event is alive with its participants. Let's make this congress a real forum, a place for exchange and discussion.

We have organized an inspiring program, chosen an appealing setting and hope to meet many of you.

The congress language will be English. But we would be highly pleased to hear you speaking in your mother tongue during the breaks.

Let us quote Einstein: "If people would only talk about what they understood, Earth would be a very quiet place."

So chat, laugh, enjoy.

We are looking forward to your participation in Vienna.

Regina Stemberger MD
President of Austrian Society of Neural Therapy

Caroline Kunz MD
President of Functional Myodiagnosis
